Subject: 2024 South Forestview Area Improvements - Project Update – August 16, 2024

Residents and Project Stakeholders:

Utility work along Forestview Drive near the northern project limit was completed earlier this week. Soil preparation continued along River Vista Drive with sodding following shortly afterward. Grading crews continued shaping ditch bottoms and placing topsoil along Forestview Drive (south of Maryland Road).

[Project Schedule/ Upcoming Work:](#)

The Contractor's tentative schedule for upcoming work includes:

- The turf restoration subcontractor is scheduled to continue soil preparation and placement of sod next week along River Vista Drive and begin working along Forestview Drive (south of River Vista Drive), Riverwood Road, and Parkview Circle.
- Grading crews are scheduled to resume roadway subgrade preparation and gravel placement later next week along Forestview Drive to the northern project limit.
- Roadway paving is scheduled to resume on Forestview Drive and Maryland Road after Labor Day.

[24-hour Emergency Contact:](#)

The deep utility work in the construction zone has created concerns related to the driving surface. If you need assistance related to access or have problems with traversing through the project area, the primary contact from RL Larson Excavating is Terry Kraemer, phone number 320.980.4416. RL Larson will have representatives at the site through weekend periods to maintain the grade and monitor the driving surface.

[Private Utility Interruptions May Occur as Work Continues \(Gas, Internet, Power\)](#)

There have been interruptions to various utility services after lines were impacted as construction progressed. Residents should be aware that this impact may occur as the underground work is completed. RL Larson and the other Contractors do their best to take care around the private utility lines (gas/internet/power), but the reality is that impacts do occur with this type of work. Please note, if you do have any impacts with your private gas, internet, or power service, please contact your service provider to alert them of the outage or issue.

[Package Deliveries:](#)

Project staff have been in contact with package delivery services, coordinating access to the South Forestview neighborhood. Private delivery services such as UPS, FedEx, DHL, etc. intend to deliver packages as access allows and contact residents to re-schedule delivery if needed. USPS policies do not allow for delivery of mail or packages in construction zones but will deliver mail and packages to temporary mailboxes. In the event that a package is not able to fit inside the temporary mailbox, USPS will provide a notification to pick up the package at the local Post Office.

[Irrigation System Repair:](#)

As topsoil and restoration work is completed throughout the project area, the contractor intends to make all necessary repairs to irrigation systems impacted by construction. If you have not already done so, please notify SEH staff if you notice any damage to existing irrigation systems.

[Work Zones:](#)

Notice on Construction Zone Activities:

- Road work signs or other temporary signage will be installed throughout the project areas to warn motorists and protect workers during construction. Please pay careful attention to the warning signs. Please exercise caution as you navigate the work zones.
