Subject: 2024 South Forestview Area Improvements - Project Update – August 23, 2024

Residents and Project Stakeholders:

Grading crews continued preparing roadway subgrade and placed gravel on Fiber Drive and the remainder Forestview Drive to the northern project limit. The turf restoration subcontractor continued to complete sod and seeding work along River Vista Drive and portions of Forestview Drive. Late this week crews began excavation of the future trailhead site at the southern limit of Forestview Drive.

[Project Schedule/ Upcoming Work:](#)

The Contractor's tentative schedule for upcoming work includes:

- The turf restoration subcontractor is scheduled to continue soil preparation and placement of sod next week completing River Vista Drive and continuing to work along Forestview Drive.
- Further excavation and site work is scheduled to resume early next week at the future trailhead on Forestview Drive.
- Roadway paving is scheduled to resume on Forestview Drive and Maryland Road after Labor Day.

[Private Utility Interruptions May Occur as Work Continues \(Gas, Internet, Power\)](#)

There have been interruptions to various utility services after lines were impacted as construction progressed. Residents should be aware that this impact may occur as the underground work is completed. RL Larson and the other Contractors do their best to take care around the private utility lines (gas/internet/power), but the reality is that impacts do occur with this type of work. Please note, if you do have any impacts with your private gas, internet, or power service, please contact your service provider to alert them of the outage or issue.

[Package Deliveries:](#)

Project staff have been in contact with package delivery services, coordinating access to the South Forestview neighborhood. Private delivery services such as UPS, FedEx, DHL, etc. intend to deliver packages as access allows and contact residents to re-schedule delivery if needed. USPS policies do not allow for delivery of mail or packages in construction zones but will deliver mail and packages to temporary mailboxes. In the event that a package is not able to fit inside the temporary mailbox, USPS will provide a notification to pick up the package at the local Post Office.

[Irrigation System Repair:](#)

As topsoil and restoration work is completed throughout the project area, the contractor intends to make all necessary repairs to irrigation systems impacted by construction. If you have not already done so, please notify SEH staff if you notice any damage to existing irrigation systems.

[Work Zones:](#)

Notice on Construction Zone Activities:

- Road work signs or other temporary signage will be installed throughout the project areas to warn motorists and protect workers during construction. Please pay careful attention to the warning signs. Please exercise caution as you navigate the work zones.
