Subject: 2024 South Forestview Area Improvements - Project Update – October 18, 2024

Residents and Project Stakeholders:

Early this week the turf restoration subcontractor finished seeding and sodding operations throughout the project area. The final layer of pavement was installed on all streets in the South Forestview neighborhood this week.

[Project Schedule/ Upcoming Work:](#)

The Contractor's tentative schedule for upcoming work includes:

- Weather pending, pavement marking (painting) is scheduled for Thursday October 24th.
- The contractor will have staff on site within the coming weeks to continue project clean up.

[Mailbox and Address Sign Components:](#)

If you wish to save any remaining components of mailbox supports or address signs, please collect them from the boulevard area near the street. Beginning the week of October 21st, any remaining components near the street will be removed and disposed of.

[Shouldering Work & Temporary Signage:](#)

Following placement of the final layer of street pavement, additional topsoil along roadway shoulders is planned to be installed in Spring 2025. Signage indicating "Low Shoulder" will be placed throughout the project area until the remaining topsoil work has been completed.

[Water Ponding in Ditches:](#)

Water accumulation in ditch bottoms is a normal condition following rain events, especially in areas of newly placed sod or seed. As turf restoration continues and roots extend into the soil, the duration of ponding in ditch bottoms will begin to decrease. We appreciate your patience and understanding while root development takes place. If you have any additional questions or concerns regarding storm water storage, please contact Shane Murphy at 612.226.7984 or smurphy@sehinc.com

[Work Zones:](#)

Notice on Construction Zone Activities:

- Road work signs or other temporary signage will be installed throughout the project areas to warn motorists and protect workers during construction. Please pay careful attention to the warning signs. Please exercise caution as you navigate the work zones.
