August 10, 2020 | Project Update No. 4

## Project Schedule

- The City of Sandstone's contractor, A1 Excavating, completed Minnesota Street, Washington Street, Division Street and 1<sup>st</sup> Street back to a gravel surface ready for curb replacement and new bituminous pavement.
- New curb & gutter will be installed on Minnesota, Washington, Division, 1<sup>st</sup> and possibly Court starting on August 19 & 20.
- Starting Thursday, August 13<sup>th</sup> - A1 will begin installing new sanitary sewer and storm mains in Pine Avenue.
- We understand construction will be an inconvenience – we appreciate your patience as we work to improve the City's streets!

## Next Week's Anticipated Work

- A1 will continue installing new sanitary and storm sewer mains in Pine Avenue, then move to Court Avenue, south of 3<sup>rd</sup> Street.
- Access to your driveway on a project street should be open most of the time with the exception of when the new curb & gutter is installed. You will need to be out of your driveway for approximately 10 days while the concrete cures. During this time, you will be able to park in the street in front of your house.
- If you have special access issues ie – medical deliveries, meal delivery, etc. please let Steve Rose know to help accommodate those - 612.759.1544.

## Street's Closed to thru Traffic -

- Pine Avenue between Washington Street and TH 123 will be closed the next 2 weeks to through traffic
- The remaining project streets should remain open. Even with streets open, PLEASE avoid a street currently under construction if possible
- Watch for future updates on street closures
