September 4, 2020 | Project Update No. 8

Project Schedule

- New storm sewer mains have been installed on Court Avenue.
- New curb has been placed on Pine, 5th and 6th.
- We understand construction will be an inconvenience – we appreciate your patience as we work to improve the City's streets!

Next Week's Anticipated Work

- Crews will be installing new storm sewer on 5th Street from Commercial to Main next week.
- Concrete flat work and driveway aprons will be completed on Pine, 5th and 6th starting on Tuesday. You will need to be out of your driveway for approximately 10 days while the concrete apron cures. During this time, you will be able to park in the street in front of your house.
- Grading crew will be prepping all streets with new curb for paving.
- Bituminous base course paving is anticipated on all streets with new curb within the next two weeks.
- If you have special access issues ie – medical deliveries, meal delivery, etc. please let Steve Rose know to help accommodate those - 612.759.1544.

Street's Closed to thru Traffic -

- The project streets should remain open, with the exception of short term closures. Even with streets open, PLEASE avoid a street currently under construction if possible
- Watch for future updates on street closures
